## Project Design Phase-II Solution Requirements (Functional & Nonfunctional)

Date	13 November 2022		
Team ID	PNT2022TMID53671		
Project Name	Efficient Water quality analysis and Prediction		
	using Machine learning		
Team Lead	Vignesh S		
Team Members	Syed Fardeen Althaf, Sree		
	Murari, Prassanna		

## **Functional Requirements:**

Following are the functional requirements of the proposed solution.

FR No.	Functional Requirement (Epic)	Sub Requirement (Story / Sub-Task)		
FR-1	User registration	Registration through		
		Gmail Create an account		
		Follow the instructions		
FR-2	User Confirmation	Confirmation via Email		
		and it is predicted by		
		water level sensor		
FR-3	Interface sensor	Interface sensor and Water level sensor produces		
		the detection of clean drinking water		
FR-4	Accessing datasets	Datasets are collected by data preprocessing method.		
FR-5	Mobile application	The efficient of water quality is analyzed, the mobile application is not used .		

## **Non-functional Requirements:**

Following are the non-functional requirements of the proposed solution.

FR No.	Non-Functional Requirement	Description		
NFR-1	Usability	This project is useful for all human being by		
	, and the second	predicting a purified water.		
NFR-2	Security	We have designed this project to secure the		
		people from drinking the impurity water.		
NFR-3	Reliability	This project will help everyone in protecting their		
		health. Accurate water quality prediction is the		
		basis of water environment management and is of		
		great significance for water environment protection.		
NFR-4	Performance	This system uses different sensors for monitoring		
		the water quality by determine		
		pH,Turbidity,conductivity and temperature. The		
		data preprocessing access the dataset. With the		
		use		
		of this we predict the quality water.		
NFR-5	Availability	By developing and deploying resilient hardware		
		and software we can analyze the drinking water.		
NFR-6	Scalability	This project used to measure and determine the		
		quality of water. This provide pollution free and		
		purified water.
